Description

Job Title: Cloud Architect

Job Summary:

Myntra is seeking a highly skilled and experienced Cloud Architect to join our team. As a Cloud Architect, you will be responsible for designing, building, and maintaining our cloud infrastructure to support our e-commerce platform. You will work closely with our engineering teams to ensure seamless integration of our applications with the cloud infrastructure, and develop scalable and secure solutions to meet our business needs.

(adsbygoogle = window.adsbygoogle || []).push({});

Key Responsibilities:

- **Design and implement cloud architecture:** Develop and maintain a comprehensive cloud architecture strategy that aligns with Myntra's business goals and objectives.
- **Cloud infrastructure management:** Manage and maintain our cloud infrastructure, including provisioning, monitoring, and troubleshooting of cloud resources.
- **Application integration:** Collaborate with engineering teams to ensure seamless integration of our applications with the cloud infrastructure, and

develop scalable and secure solutions to meet our business needs.

- **Security and compliance:** Ensure the security and compliance of our cloud infrastructure, including implementing security controls, monitoring for vulnerabilities, and ensuring compliance with regulatory requirements.
- **Cost optimization:** Optimize cloud costs by identifying areas of inefficiency, implementing cost-saving measures, and ensuring alignment with business objectives.
- **Team collaboration:** Collaborate with cross-functional teams, including engineering, product, and operations, to ensure alignment and effective communication.
