### Description

## Tata Motors Recruitment 2024

Tata Motors is a household name in India, synonymous with innovation and excellence in the automotive industry. We're on a mission to create future-ready vehicles that are not just safe and reliable, but also exciting and eco-friendly.

### The Position: Design Engineer

Are you passionate about cars and have a knack for creating things? Do you dream of translating ideas into reality? If so, then this role as a Design Engineer at Tata Motors might be the perfect fit for you!

(adsbygoogle = window.adsbygoogle || []).push({});

### What You'll Be Doing:

- You'll be part of a dynamic team, collaborating with other engineers and designers to bring new vehicle concepts to life.
- Your day-to-day tasks will involve:
  - Sketching and developing initial design ideas for car components or entire vehicles.
  - Using computer-aided design (CAD) software to create 3D models and technical drawings.
  - Performing simulations and calculations to ensure your designs are functional, safe, and meet manufacturing requirements.
  - Working closely with manufacturing teams to ensure smooth production of designed components.
  - Staying updated on the latest trends and technologies in the

automotive design industry.

### We're Looking for Someone With:

- A Bachelor's degree in Mechanical Engineering, Automobile Engineering, or a related field.
- A strong understanding of mechanical design principles and engineering mechanics.
- Proficiency in CAD software like CATIA, SolidWorks, or Creo.
- Excellent communication and collaboration skills to work effectively in a team environment.
- A creative mind with a passion for car design and a problem-solving attitude.
- Freshers with a strong academic background and a hunger to learn are welcome to apply!
