Description

TCS Recruitment

As a Cyber Security Analyst at TCS, you'll be the frontline warrior in the battle against cybercrime. You'll analyze security threats, identify vulnerabilities, and implement proactive measures to safeguard our clients' most valuable assets – their data. Your analytical skills, technical expertise, and collaborative spirit will be instrumental in building robust security strategies, responding to incidents, and keeping our clients' digital world safe.

TCS Jobs near me

Responsibilities:

- **Security Detective:** Monitor networks and systems for anomalies, analyze security logs, and investigate potential threats to identify vulnerabilities and prevent breaches.
- **Defense Architect:** Implement and configure security controls, firewalls, intrusion detection systems, and other security tools to create a robust defense against cyberattacks.
- **Incident Response Champion:** Work alongside a team of experts to contain and remediate security incidents, minimizing damage and ensuring rapid recovery.
- **Knowledge Guru:** Stay abreast of the ever-evolving cyber landscape, research new threats and vulnerabilities, and share your knowledge with colleagues to strengthen TCS's overall security posture.
- **Collaborative Defender:** Foster a collaborative environment, share your expertise with internal teams and clients, and contribute to building a robust security culture within TCS.
